Summary of Constructivist Teaching Methods

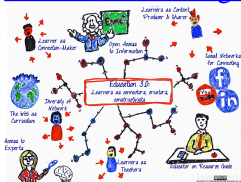

Method	Characteristics	Benefits	Challenges
1. Inquiry-based learning	Students explore concepts through hands-on activities and problem-solving.	Develops critical thinking and problem-solving skills.	Requires more time and resources.
2. Collaborative learning	Students work together in groups to solve problems and share knowledge.	Enhances communication and teamwork skills.	Requires careful monitoring and facilitation.
3. Project-based learning	Students engage in long-term, real-world projects that require research and application of knowledge.	Develops research, communication, and problem-solving skills.	Requires significant planning and resources.
4. Student-centered learning	Students take ownership of their learning and explore topics of interest.	Increases student motivation and engagement.	Requires a shift in teacher roles and classroom management.
