Book description

Master the simple, yet powerful, and time-saving assessment techniques that help you assess student learning, differentiate instruction, and provide feedback that promotes growth. This book offers 50 practical, research-based strategies that you can use in your classroom today. The strategies are easy to learn and use, and they are designed to be used in a variety of ways. This book is a must-read for every math teacher who wants to improve their assessment practices and provide effective feedback to their students. Includes ready-to-use forms, checklists, and a companion website with additional resources and ready-made examples.
